## Independent Auditor's Report

Honorable Mayor and Members of the City Council  
City of Victor  
Victor, Colorado

### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the City of Victor, (the "City"), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the City of Victor, as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and General Fund budgetary comparison for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern within twelve months beyond the financial statements date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

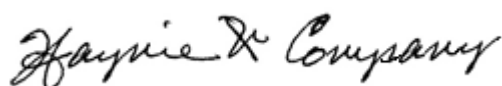

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Victor's financial statements as a whole. The accompanying state compliance section is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Littleton, Colorado

**City of Victor  
Management's Discussion and Analysis  
For the Year Ended December 31, 2022**

This section of the annual financial report offers readers of the City of Victor's (City) financial statements an analysis of the City's financial performance during the year ended December 31, 2022. We encourage readers to consider the information here in conjunction with additional information furnished in the City's financial statements which immediately follow this section.

**Financial Highlights**

- Assets exceeded liabilities by \$16.4 million at the close of 2022. Of the City's total assets, 69% consisted of capital assets and 29% consisted of cash and investments. Of the City's total liabilities, 86% consisted of deposits and 10% consisted of accounts payable to vendors.
- Total net position increased by \$411 thousand, or 3%, from 2021. The increase in net position is primarily due to an increase in cash and investments and decrease in current liabilities. Of the City's total net position at the close of 2022, (i) \$11.7 million, or 71%, represents the City's investment in capital assets net of debts that are attributable to the acquisition, construction or improvements of those assets, (ii) \$58.9 thousand, or .36%, represents restricted funds related to conservation trust and emergencies, and (iii) \$4.6 million, or 28%, represents unrestricted net position.
- At the close of 2022, the City's governmental funds reported combined ending fund balances of \$3.8 million. Of this amount: (i) \$58 thousand was restricted for emergencies (TABOR) and parks and recreation expenditures (conservation trust), (ii) \$3.3 million was committed for capital projects, (iii) \$48 thousand was assigned for Main Street projects and the Fire Department's discretionary expenditures, and (iv) \$429 thousand was unassigned and available for general government expenditures.
- At the close of 2022, the Utility Enterprise Fund had net investment in capital assets totaling \$4.8 million and unrestricted net position totaling \$870 thousand.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information and schedules in addition to the basic financial statements.

**Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, and the difference is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

**City of Victor**  
**Management's Discussion and Analysis**  
**For the Year Ended December 31, 2022**

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The statement of net position and the statement of activities report City activities in two categories – governmental activities and business-type activities. Both of the government-wide financial statements identify functions of the City that are principally to be supported by intergovernmental revenues (governmental activities). The governmental activities of the City include most of the basic services such as general government, public safety, public works, community development and parks and recreation. The basic government-wide financial statements can be found on pages 1 – 2 of this report.

**Fund Financial Statements**

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The *funds* of the City include both governmental funds and a proprietary fund.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Capital Projects Fund. These two funds are considered to be major funds.

The City adopts an annual appropriated budget for its General Fund and Capital Projects Fund. A budgetary comparison schedule has been provided for each of these funds to demonstrate compliance with the State's Budget Law. The basic governmental fund financial statements can be found on pages 3 and 5 of this report.

**Proprietary fund.** The City maintains one proprietary fund. A proprietary fund is used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses a proprietary fund, called the Utility Enterprise Fund, to account for its water and wastewater operations. The basic proprietary fund financial statements can be found on pages 11 – 13 of this report.

**City of Victor  
Management's Discussion and Analysis  
For the Year Ended December 31, 2022**

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements, as well as the proprietary fund financial statements. The notes to the financial statements can be found on pages 14 – 25 of this report.

**Required Supplementary Information**

Budgetary comparison schedules have been provided in this section for the Capital Projects Fund and the Proprietary Fund to demonstrate compliance with the State's Budget Law. The budget schedules are found after the notes to the financial statements on pages 26 – 28 of this report.

**Other Supplementary Information**

This section includes a State compliance report on pages 30 and 31.

**Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's net position increased from December 31, 2021, by \$411 thousand, a 3% increase.

Total net position	<u><u>\$ 5,689,729</u></u>	<u><u>\$ 6,286,797</u></u>

**City of Victor  
Management's Discussion and Analysis  
For the Year Ended December 31, 2022**

The largest portion of the City's net position (71.3%) reflects its net investment in capital assets. The City utilizes these capital assets to provide services to citizens. These assets are not available for future spending.

Approximately .3% of the City's net position represents resources that are subject to restrictions on how they can be used (e.g., emergency reserve) and are not currently available for the City's ongoing obligations.

Approximately 28.4% of the City's net position is unrestricted and may be used to meet the City's future expenditures.

At the end of 2022, the City is able to report positive balances in all three categories of net position.

<b>Change in Net Position</b>	<u><u>\$ (597,068)</u></u>	<u><u>\$ 490,718</u></u>

**City of Victor  
Management's Discussion and Analysis  
For the Year Ended December 31, 2022**

All capital grants and contributions received by the City were recorded in the Capital Projects Fund. Since the Capital Projects Fund, a governmental fund, is used to account for all capital projects, transfers are recorded between the Capital Projects Fund and other funds, which are included as part of the *Transfers out and other expenses* above. The capital assets acquired within the governmental fund were then transferred to the proprietary fund which is reflected above as *Transfer of capital assets*.

**Financial Analysis of City's Funds**

**General Fund**

The General Fund was established and is continually funded to provide for the daily activities of the City. The primary funding sources for the General Fund are property and sales taxes, intergovernmental revenues and grants. The primary projects or program efforts for 2022 were public safety, public works and general government.

***General Fund Budgetary Highlights***

The City's budget is prepared in accordance with the Colorado Budget Law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The actual total expenditure for the year was \$58,192 less than the budget.

Section 20 of the Colorado Constitution (TABOR) requires the City to maintain an emergency reserve equivalent to at least 3% of fiscal year spending. At December 31, 2022, the City's emergency reserve amounted to \$27,000.

**Capital Assets**

The City added \$123k to its capital assets for governmental activities and business- type activities during calendar year 2022. This investment in capital assets during 2022 primarily consisted of trailer and equipment additions. The net decrease of \$462K in capital assets was due to 2022 depreciation expense.

Additional information on the City's capital assets can be found in Note 5 on pages 22 and 23 of this report.

**Long-Term Debt**

At the end of 2022 the City held no debt.

**City of Victor  
Management's Discussion and Analysis  
For the Year Ended December 31, 2022**

**Next Year's Budgets**

The 2022 budget reflects the Council's endeavor for a fiscally responsible budget built on conservative revenue projections, necessary and discretionary expenditure levels, and required and reasonable reserves.

The City has appropriated \$5.4 million for spending in 2023. Of this amount, \$1.3 million is budgeted for spending in the General Fund, \$2 million is budgeted in the Utility Enterprise Fund for the operations of water and wastewater systems, and \$2.1 million is budgeted in the Capital Projects Fund.

**Requests for Information**

This financial report is designed to provide a general overview of the City of Victor's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Clerk and Treasurer at: City of Victor, PO Box 86, 500 Victor Avenue, Victor, CO 80860.

# **City of Victor**

## **Notes to Financial Statements**

### **December 31, 2022**

---

#### **1. Definition of Reporting Entity**

---

The City of Victor was founded in 1893. It operates under a Mayor/Council statutory form of government and provides the following services: public safety (police and fire), public works (highway and streets), water, sewer, parks and recreation, cemetery, community development (including planning, building and zoning), downtown revitalization and general government.

The City follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency.

---

#### **2. Summary of Significant Accounting Policies**

---

The more significant accounting policies of the City are described as follows:

##### **Government-wide and Fund Financial Statements**

The government-wide financial statements include the statement of net position and the statement of activities. For the most part, the effect of interfund activity has been removed from these statements. Both statements distinguish between governmental activities, which are normally supported by taxes and intergovernmental revenues, and business-type activities, which rely to a significant extent on fees and charges for support.

The statement of net position reports all financial and capital resources of the primary government and its component units. The difference between the assets plus deferred outflows of resources and liabilities plus deferred inflows of resources of the City is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

**City of Victor, Colorado**  
**Notes to Financial Statements (continued)**  
**December 31, 2021**

---

**2. Summary of Significant Accounting Policies (continued)**

---

Separate financial statements are provided for the governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Depreciation is computed and recorded as an operating expense. Expenditures for property, equipment and infrastructure are shown as increases in assets, while the redemption of bonds and/or payment of debts (principal portion) are recorded as a reduction in liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within a reasonable period (typically within 60 days) following the end of the current fiscal period. The major sources of revenue susceptible to accrual are taxes and intergovernmental revenues. All other revenue items are considered to be measurable and available only when cash is received by the City. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation due.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital improvements and equipment.

The City reports the following major proprietary fund:

The Utility Enterprise Fund accounts for activities related to the offering of water and wastewater services to the City's residents and certain outside users.

**City of Victor, Colorado**  
**Notes to Financial Statements (continued)**  
**December 31, 2021**

---

**2. Summary of Significant Accounting Policies (continued)**

---

**Budgets**

In accordance with the State Budget Law, the City Council holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year end. The City Council can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting, unless otherwise indicated.

**Pooled Cash and Investments**

The City follows the practice of pooling cash and investments of all funds to maximize interest earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Investments are carried at fair value or net asset value.

**Cash Equivalents**

For purposes of the statement of cash flows, the City considers cash deposits and highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

**Accounts Receivable and Allowance for Doubtful Accounts**

Tap fees, water and sewer fees and other similar fees constitute a perpetual lien on or against the property served until paid. Such fees, when uncollectible, can be certified to the County Treasurer and attach to the tax rolls. Therefore, no provision for doubtful accounts has been provided in the financial statements.

**Property Taxes**

Property taxes are levied by the City Council. The levy is based on assessed valuations determined by Teller County Assessor generally as of January of each year. The levy is set no later than December 15 by certifications to the Teller County Commissioners to put the tax lien on the property as of January 1 of the following year. Teller County bills and collects taxes for the City. At the option of the taxpayer, property taxes may be paid either in full on April 30, or two installments on February 28 and June 15. The County remits the taxes collected to the City on a monthly basis. Delinquent taxpayers are notified in August and sale of the tax liens on delinquent properties are generally held in November or December.

**City of Victor, Colorado**  
**Notes to Financial Statements (continued)**  
**December 31, 2021**

---

**2. Summary of Significant Accounting Policies (continued)**

---

Property taxes, net of estimated uncollectible taxes, are recorded as deferred inflows of resources in the year they are levied and measurable. The unearned property tax revenue is recorded as revenue in the year it is available and collected.

**Capital Assets**

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, sidewalks and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

Buildings and improvements	30 - 50 years
Machinery, equipment and computers	5 - 15 years
Infrastructure	30 - 40 years

The City has elected to not retroactively report infrastructure.

**Compensated Absences**

Employees of the City are allowed to accumulate unused vacation time up to one year's accrual plus 40 hours. Upon termination of employment, an employee will be compensated for all eligible accrued vacation time at their current rate of pay. Vacation accrual is recorded in the government-wide financial statements.

**New Accounting Pronouncements**

The District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, Leases on January 1, 2022. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It established requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a right of use asset and a lease liability. On December 31, 2022, the City lease activity is immaterial.

**City of Victor, Colorado**

**December 31, 2021**

---

**2. Summary of Significant Accounting Policies (continued)**

---

**Fund Equity/Fund Balance**

In the government-wide financial statements, fund equity is classified as net position. Net position may be classified into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

- Net investment in capital assets - This component of net position consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any debt that is attributable to the acquisition, construction or improvement of those assets. If there are significant unspent debt proceeds at year end, the portion of the debt attributable to the unspent proceeds is not included in this component.
- Restricted - This component of net position consists of assets that are restricted for use either externally imposed by creditors, grantors, contributors or laws or regulations of other governments or constraints imposed through constitutional provisions or enabling legislation.
- Unrestricted - The component of net position that does not meet the definition above.

In the governmental funds, fund balances should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable fund balance* – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.
- *Restricted fund balance* – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- *Committed fund balance* – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, City Council. The constraint may be removed or changed only through formal action of City Council.
- *Assigned fund balance* – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the City Council to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.
- *Unassigned fund balance* – The residual portion of fund balance that does not meet any of the criteria described above.

# City of Victor, Colorado

## Notes to Financial Statements (continued)

### December 31, 2021

## 2. Summary of Significant Accounting Policies (continued)

If more than one classification of fund balances is available for use when an expenditure is incurred, it is the City's practice to use the least restrictive classification first.

## 3. Cash and Cash Equivalents

Cash and investments as of December 31, 2022, are classified in the accompanying financial statements as follows:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Statement of net position:		
Cash and investments	\$ 4,156,575	\$ 616,673
Cash and investments - Restricted	<u>62,802</u>	<u>-</u>
Total cash and investments	<u>\$ 4,219,377</u>	<u>\$ 616,673</u>

Cash and investments as of December 31, 2022, consist of the following:

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Cash on hand	\$ 300	\$ -
Deposits with financial institutions	3,051,929	(256,541)
Investments	<u>1,167,148</u>	<u>873,214</u>
Total cash and investments	<u>\$ 4,219,377</u>	<u>\$ 616,673</u>

### Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

None of the City's deposits are subject to custodial risk since they are deposited in certified eligible public depositories under the PDPA.

As of December 31, 2022, the City's cash deposits for governmental and business-type activities had a bank balance totaling \$2,824,717 and a carrying balance totaling \$2,795,388.

# City of Victor, Colorado

## Notes to Financial Statements (continued)

### December 31, 2021

### 3. Cash and Cash Equivalents (continued)

#### Investments

The City has not adopted a formal investment policy; however, the City follows state statutes regarding investments.

The City generally limits its concentration of investments to those noted with an asterisk (\*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the City is not subject to concentration risk disclosure requirements or to investment custodial credit risk for investments that are in the possession of another party.

Colorado Revised Statutes limit investment maturities to five years or less unless formally approved by the City Council. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- \* Local government investment pools

As of December 31, 2022, the City had investments totaling \$2,040,362 as follows:

Investment	Maturity	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Colorado Local Government Liquid Asset Trust (Colotrust)	Weighted average under 60 days	\$ 1,167,148	\$ 873,214

**City of Victor, Colorado**  
**Notes to Financial Statements (continued)**  
**December 31, 2021**

---

**3. Cash and Cash Equivalents (continued)**

---

**COLOTRUST**

The City invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (The Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust currently offers three portfolios – COLOTRUST PRIME, COLOTRUST PLUS+, and COLOTRUST EDGE.

COLOTRUST PRIME and COLOTRUST PLUS+, which operate similarly to a money market fund and each share is equal in value to \$1.00, offer daily liquidity. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under CRS 24-75-601.

COLOTRUST EDGE, a variable Net Asset Value (NAV) Local Government Investment Pool, offers weekly liquidity and is managed to approximate a \$10.00 transactional price share. COLOTRUST EDGE may invest in securities authorized by CRS 24-75-601, including U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under CRS-24-75-601.

A designated custodial bank serves as custodian for the Trust's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST PRIME and COLOTRUST PLUS+ are rated AAAm by Standard & Poor's. COLOTRUST EDGE is rated AAAf/S1 by Fitch Ratings. COLOTRUST records its investments at fair value and the District records its investments in COLOTRUST at net asset value as determined by fair value. There are no unfunded commitments, the redemption frequency is daily or weekly, and there is no redemption notice period.

---

**4. Interfund Transfers**

---

The following schedule summarizes the City's interfund transfers for the year ended December 31, 2022:

Transfers Out	Transfers In	
	General Fund	Capital Projects Fund
Utility Enterprise Fund	\$ 575,000	\$ 1,475,000

**City of Victor, Colorado**  
**Notes to Financial Statements (continued)**  
**December 31, 2021**

---

**4. Interfund Transfers (continued)**

---

The transfers from the Utility Enterprise Fund to the General Fund and Capital Projects Fund were made during 2022 pursuant to the policies adopted by the City Council which commits/allocates the net available revenue (after operating expenses) of the raw water operations within the Utility Enterprise Fund to certain operational expenditures (General Fund) and capital outlay (Capital Projects Fund).

---

**5. Capital Assets**

---

Changes in governmental capital assets for the year ended December 31, 2022, follow:

<b><u>Governmental Activities</u></b>	<b><u>Balance December 31, 2021</u></b>	<b><u>Additions</u></b>	<b><u>Conveyances or Retirements</u></b>	<b><u>Balance December 31, 2022</u></b>
Capital assets, not being depreciated:				
Land	\$ 232,662	\$ -	\$ -	\$ 232,662
Capital Assets, being depreciated:				
Buildings and improvements	6,029,510	-	-	6,029,510
Machinery, equipment and computers	1,574,191	120,630	-	1,694,821
Infrastructure	2,742,941	-	-	2,742,941

Wastewater plant and systems	6,468,230	-	-	6,468,230
Total depreciable assets	12,215,650	2,788	-	12,218,438
Total capital assets	12,456,705	2,788	-	12,459,493
Less accumulated depreciation:				
Total accumulated depreciation	(7,313,636)	(326,739)	-	(7,640,375)
Depreciable assets, net	4,902,014	(323,951)	-	4,578,063
Business-type activities capital assets, net	\$ 5,143,069	\$ (323,951)	\$ -	\$ 4,819,118

Depreciation expense for the business-type capital assets was allocated as follows:

	<b><u>Business-Type Activities</u></b>
Water	\$ 75,932
Wastewater	250,807
Total depreciation expense	<u>\$ 326,739</u>

---

**6. Net Position**

---

The City has net position consisting of three components - net investment in capital assets, restricted and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of bonds, mortgages, notes, capital leases and other borrowings that are attributable to the acquisition, construction, or improvements of those assets. As of December 31, 2022, the City had net investment in capital assets calculated as follows:

# City of Victor, Colorado

## Notes to Financial Statements (continued)

### December 31, 2021

---

#### 6. Net Position (continued)

---

	<u>Governmental Activities</u>	<u>Business-type Activities</u>
Capital assets, net	\$ 6,919,740	\$ 4,819,118
Net investment in capital assets	<u>\$ 6,919,740</u>	<u>\$ 4,819,118</u>

The restricted component of net position consists of assets that are restricted for use either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislations. As of December 31, 2022, the City had restricted net position as follows:

	<u>Governmental Activities</u>
Restricted net position:	
Emergency reserve	\$ 27,000
Conservation Trust	<u>31,974</u>
	<u>\$ 58,974</u>

As of December 31, 2022, the City's unrestricted net position totaled \$4,675,750.

---

#### 7. Commitments, Contingencies and Economic Dependency

---

The City receives financial assistance from federal and state governmental agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or Capital Projects Fund. However, in the opinion of the City, any such disallowed claims will not have a material effect on the financial statements of the individual fund type or on the overall financial position of the City at December 31, 2022.

The City has only one major employer within its City limits, the Cripple Creek & Victor Gold Mining Company, which accounts for a significant portion of the City's utility fees revenue.

---

#### 8. Risk Management

---

The City is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

# **City of Victor, Colorado**

## **Notes to Financial Statements (continued)**

### **December 31, 2021**

---

#### **8. Risk Management (continued)**

---

The City is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA). CIRSA is a joint self-insurance pool created by intergovernmental agreement to provide property, liability and workers' compensation coverage to its members. CIRSA is governed by a seven-member Board elected by and from its members.

Coverage is provided through pooling of self-insured losses and the purchase of excess insurance coverage. CIRSA has a legal obligation for claims against its members to the extent that funds are available in its annually established loss fund and that amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. CIRSA has indicated that the amount of any excess losses would be billed to members in proportion to their contributions in the year such excess occurs, although it is not legally required to do so.

Settled claims have not exceeded insurance coverage in the last three years.

---

#### **9. Tax, Spending, Revenue and Debt Limitations**

---

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. At December 31, 2022, the City has reserved \$27,000 for emergencies.

The City's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.
